IET Inspec is one of the most definitive databases for subject-specific and interdisciplinary research in the fields of engineering, physics, and computer science. Each of the 21+ million records in Inspec is assigned unique indexes (E.g., controlled & uncontrolled terms, subject classifications, chemical indexing, numerical data indexing, astronomical object indexing, IPC International Patent Codes, and treatment codes). Precise and accurate indexing for each article by subject matter experts provides enhanced discoverability of content, allowing users to pinpoint relevant research quickly and easily.

Inspec 数据库是工程、物理以及计算机科学领域研究最权威的数据库之一。数据库中收录的 2100 万条记录中每一条都被标引了独特的索引（例如，受控制词和非控制词、学科分类代码、化学索引、数值索引、天文学索引、国际专利代码和处理代码）。领域内的数据专家针对每篇文章的精准索引可以有效提升收录内容的可发现性，同时也可以让用户迅速便捷地检索到最相关的主题研究。
